RULING ON ENTITLEMENT¹

On January 7, 2021, Sophie Friedfeld-Gebaide filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on March 2, 2020. Petition at 1. Petitioner further alleges that the vaccine was administered in the United States, she suffered the sequela of her injury for more than six months, and neither Petitioner nor any other party has ever received compensation in the form of an award or settlement for her vaccine-related injury. Petition at ¶¶ 3, 5; Ex. 1 at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2018).

On April 18, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI") for SIRVA." *Id.* at 5. Respondent further agrees that the records show that Petitioner timely filed her case, that she received the vaccine in the United States, and that she satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration. *Id.* at 6.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
